

As part of our commitment to continuously update and enhance our Fundraising system, we recently made the following enhancements to the Artez Platform.

**Bugs & Minor Enhancements:**

**Minor Enhancements:**

- In efforts to secure the Artez Platform we are enabling Google ReCaptcha for all Gateways setup within our application. Any place a payment is made will now require additional information to be successfully entered. This is a very standard change for online security.
- We have added a Guest Checkout Option to PayPal Express Payments. Users who select this payment option will now be able to checkout with a Credit Card through PayPal without creating a PayPal account.
- We have updated the Tax Receipt Gift Date to be the Date of the Credit Transaction. This was an issue for donations that were entered offline in the Fundraising Hub and then Paid-In later. Prior to this change it was the date of the donation which could differ from the transaction date for Offline Paid-In donations. This change was made to adhere to the Canada Revenue Agency's guidelines.

**Bugs:**

- Resolved an issue where the "Insert Recipient's Name" option in "Get Sponsor" and "Thanks Sponsor" emails sent from the Fundraising Hub was not including the recipients name as expected.
