

As part of our commitment to continuously update and enhance our Fundraising system, we have recently made the following enhancements to the FrontStream Fundraising Professional platform.

Minor UI Enhancements

We have made some minor user interface changes in our event templates.

Note: For clients with custom CSS, no changes were made to any of the element ID's or classes. The changes affect big browser pages only; mobile page were not changed.

Changes to the Default Buttons in All Event Templates

The default event buttons have been updated in all event templates.

Just as before, you can control the default button style by going **Style Settings > Background, Layout and Buttons**.

Buttons

Select the default button style below

Button text colour:

Other Minor Enhancements

Export

We have updated the export file (XML 1.8 and CSV 1.8) to include the following values:

- ProcessingFeeAmount**
 - For transaction type “Donation”, a value is populated if the donor opted in for covering the processing fee. The value populated is the processing fee amount.
- CouponCode**
 - For transaction type “Registration”, a value is populated (Coupon code name) if the registrant uses a coupon code.
- CouponValue**
 - For transaction type “Registration”, a value is populated with the value of the coupon code.
