

As part of our commitment to continuously update and enhance our Fundraising system, we have recently made the following enhancements to the FrontStream Fundraising Pro platform.

reCAPTCHA

reCAPTCHA

We have replaced CAPTCHA with Google’s reCAPTCHA. On the payment confirmation pages, instead of having to enter numbers and letters like they did with the old CAPTCHA, users can now with one click verify that they are not a robot as shown in the image below.

While most users will simply need to click on the checkbox, if the logic can't detect if it's a human or a robot, the user may be prompted to answer an answer and additional question as shown in the image below.

Enhancements

The following have been added to Fundraising Pro in this release.
