

March 2016 – Release Notes

As part of our commitment to continuously update and enhance our Fundraising system, we have recently made the following enhancements to the FrontStream Fundraising Professional platform.

Fixes & Minor Enhancements	
Component	Description
Donation Details Report	Resolved an issue where the “Transaction Status” column was not displaying “Succeeded” for offline paid in donations.
Relationships tab	Resolved an issue where adding a fundraiser to a team would result in an error because the fundraiser had an individual corporate team affiliation.
Waiver	Resolved an issue where proxy registrants were able to access the fundraising hub without accepting a waiver.
Location Pages	Resolved an issue where some location content was being overwritten.
Mobile Registration	Resolved an issue where mobile users were being redirected to big browser registration when "Account Verification for New Registrants" was enabled in event settings.
Mobile Registration	Resolved an issue where in mobile registration, all locations were listed, including locations where the registration date was in the future.
Mobile Registration	Added the ability to register for an event using Facebook single sign-on.
Event and Location Pages	Resolved an issue where the new event and location pages were not displaying the event name in the browser tab.
Purchase Event	Resolved an issue where the WYSIWYG displays an error when trying to edit the Purchase Total page.
Event API	Added the ability to call an API method and have it return location specific totals.
Event API	Resolved an issue where the POST Teams method was not accepting the value passed in the SearchConsent parameter.
