

As part of our commitment to continuously update and enhance our Fundraising system, we have recently made the following enhancements to the Artez platform.

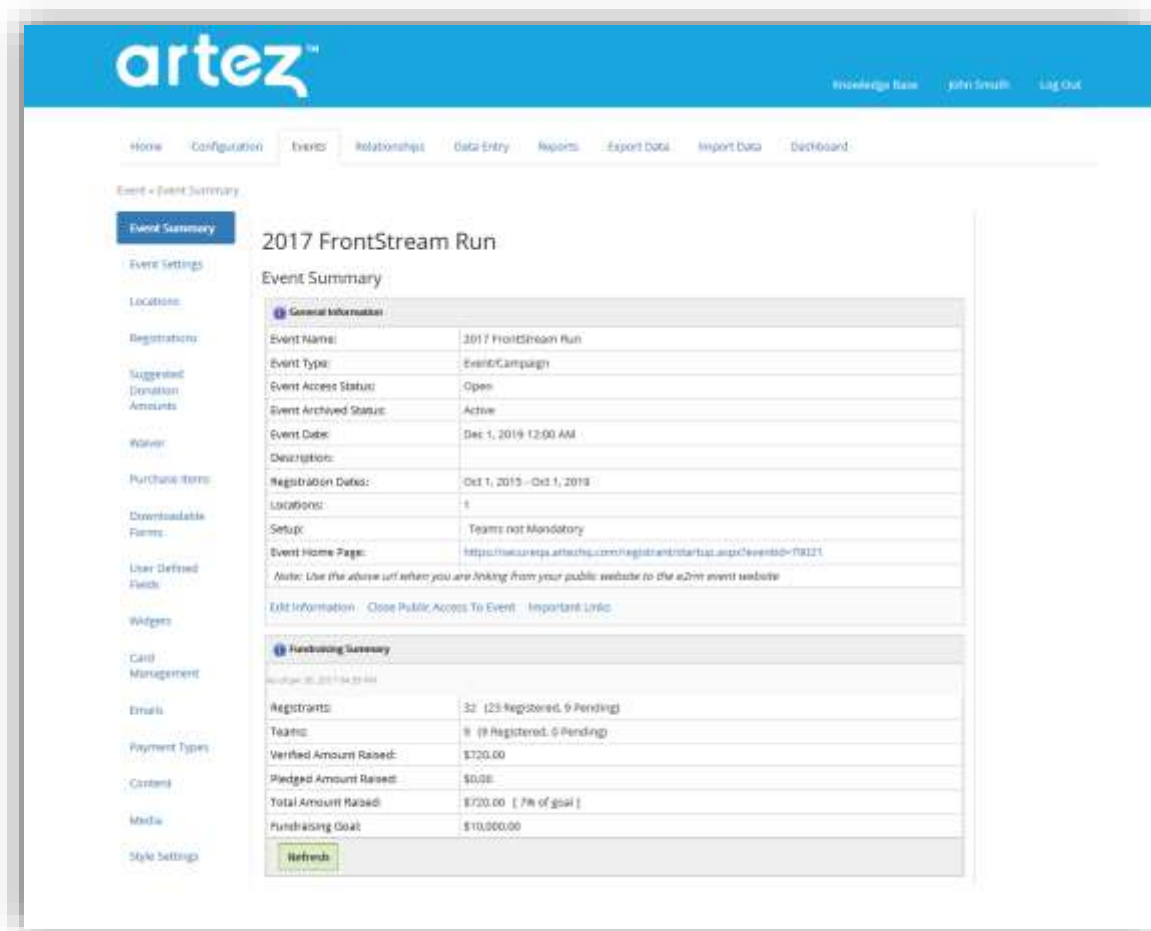

Admin Update

We have updated the look of the Artez admin site. Navigating around the admin site remains the same.

Minor Enhancements & Bug Fixes

Minor Enhancements																
Component	Description															
Gateway	<p>We now store that transaction_id that is returned from the Paystream payment gateway. When you run the reconciliation report, the “Credit Card Authorization #” column will now include the Credit Card Authorization number followed by the Transaction ID.</p> <table border="1"> <thead> <tr> <th>Credit Card Transaction ID</th> <th>Credit Card Authorization #</th> <th>Transaction Status</th> </tr> </thead> <tbody> <tr> <td>118591</td> <td>800677 810-P-GRW0VXWV</td> <td>Succeeded</td> </tr> <tr> <td>118592</td> <td>467247 810-P-XZHHDJXA</td> <td>Succeeded</td> </tr> <tr> <td>118594</td> <td>104257 810-P-WOZYEEP</td> <td>Succeeded</td> </tr> <tr> <td>118595</td> <td>530572 810-P-9Q41B9KO</td> <td>Succeeded</td> </tr> </tbody> </table>	Credit Card Transaction ID	Credit Card Authorization #	Transaction Status	118591	800677 810-P-GRW0VXWV	Succeeded	118592	467247 810-P-XZHHDJXA	Succeeded	118594	104257 810-P-WOZYEEP	Succeeded	118595	530572 810-P-9Q41B9KO	Succeeded
Credit Card Transaction ID	Credit Card Authorization #	Transaction Status														
118591	800677 810-P-GRW0VXWV	Succeeded														
118592	467247 810-P-XZHHDJXA	Succeeded														
118594	104257 810-P-WOZYEEP	Succeeded														
118595	530572 810-P-9Q41B9KO	Succeeded														
Tribute																
Bug Fixes																
Component	Description															
Registration	Resolved an issue in mobile registration where the dollar symbol was always displayed. Mobile registration now displays the correct currency symbols.															
Reports	Resolved an issue where if the initial payment failed for a participant entered donation and was then followed up with a successful payment, the donation details would display the donation as failed.															
Reports	Resolved an issue where participant entered paid-in donations were not reporting payment date/time and payment method in the Donation Detail Report															
Team Member List	Resolved an issue where \$0 was being displayed when the only funds raised by a team member were credited funds.															
Registration	Resolved an issue where the date picker was not loading on iOS devices when using the Chrome browser															
New Location Home Page	Users are no longer asked to select a location when going through registration, if they clicked on the sign up button from one of the location pages.															
Media	Resolved an issue in the admin media page where adding an image from a URL was resulting in an error.															
Event API	Fixed an issue where the Constituents method was not storing the value passed in the OrganizationName attribute event though “IsOrganization” was set to false.															
Registration	Resolved an issue in mobile registration were if you had 3 registration types, one for individuals, one for team captains and another one for team members, it would result in an error when going through registration.															
Dynamic Suggested Donation Amounts	Resolved an issue that was preventing some events from enabling dynamic suggested donation amounts.															
Event API	Resolved an issue where the GET Registrations/{id} returns a 500 error when the registrant has raised some funds, but has no fundraising goal.															
Tribute	Resolved an issue where the Print Card button was being displayed when you actually printed out the page.															
Tribute	Resolved an issue where the card previews were not displaying properly in Internet Explorer.															
Registrations	Resolved an issue where in the admin console, event administrators were unable to update the registration type name.
