

As part of our commitment to continuously update and enhance our Fundraising system, we have recently made the following enhancements to the Artez platform.

### Donation and Tribute Template is Now Mobile Responsive

Last year, we released the [All-in-One Donation and Tribute Template](#). In this release, we updated the page and made it responsive. This means that no matter what device (tablet, mobile or laptop/desktop) the page will accommodate and display optimally regardless of the screen size. This also means that you will only need to edit the look and feel and content of one page instead of separating mobile pages from regular pages.

#### Tribute Event – Standard Browser / Mobile Browser

# FRANK'S FOUNDATION

CARING FOR KIDS SINCE 1960

## Please donate

### Add E-Cards in the Event Setup Wizard for Donation and Tribute Events

We have now added the ability to add E-Cards when you are initially setting up a Donation and Tribute event. There are new options to do so in the Event Setup Wizard in the Admin Console.

#### Donation and Tribute Event Creation

Going through the Event Setup Wizard in the Admin Console for the Donation and Tribute event you are now given additional options for In Honour / Memory settings that allow you to add E-Cards during initial setup of the event.

Do you want to allow donors to make In Honour / Memory donations?

Yes, I would like to allow donors to make In Honour / Memory donations

Would you like to offer donors the option to send an E-Card / Print Card?

Yes

No

No, I don't want to allow donors to make In Honour / Memory donations

### Donation and Tribute - Setup

Please fill out the details of the Print Card or E-Card. You can add multiple cards.

**Card Type \***  Print Card  E-Card **Tribute Type \***  In Memoriam  In Honour

Card Title  \* Export ID  \*

Default Card Message  \*

Card Image \*  No file chosen Images larger than 700px will automatically be resized.

Card Layout

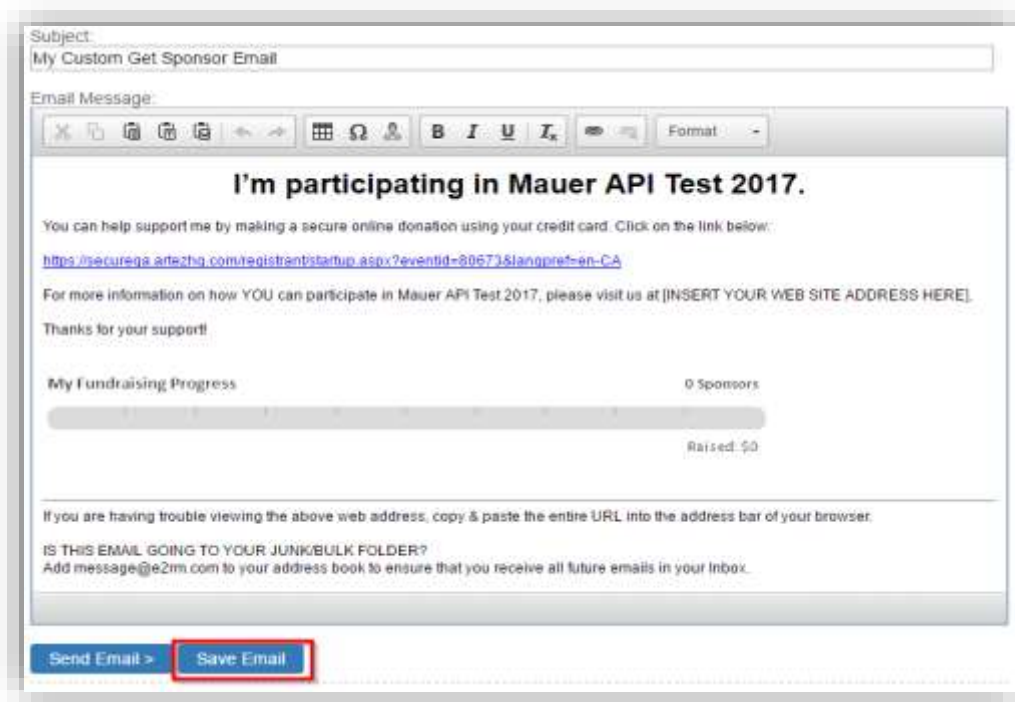

If you would like to add additional items, click on the button below, otherwise click Next.

### Save Get Sponsors Email Templates in the Fundraising Hub.

We have added the ability to save different get sponsors emails within the Fundraising Hub. You are now given a “Save Email” option which save any changes the registrant made to the get sponsors email. The registrant can save a single custom get sponsors email templates and reload then at any time. This will save the registrant a lot of time as they no longer need to re-edit the email if they have logged out.

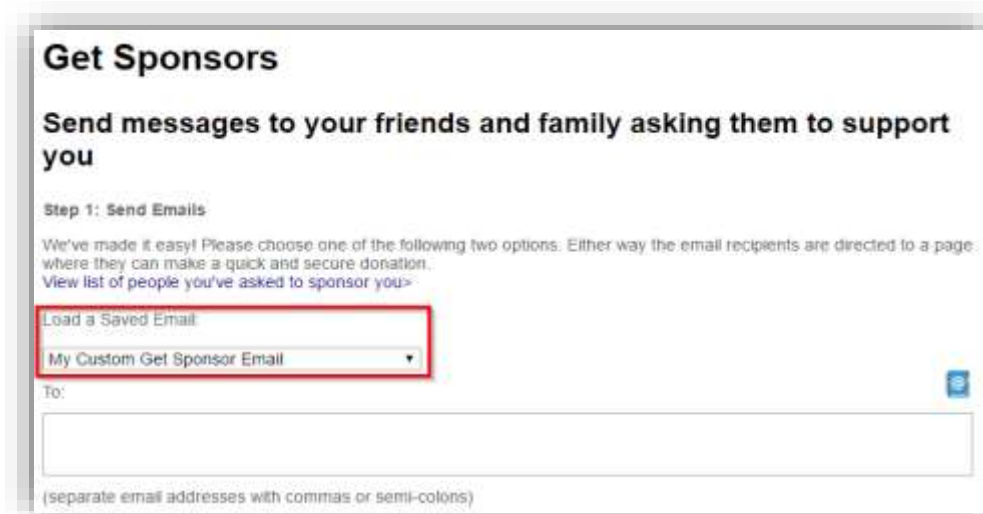

#### Email Creation

Log into the Fundraising Hub and click “get Sponsors.” Make any edits to the email subject and email message and click “Save Email.”

#### Reload Saved Emails

We have also added a drop-down option that allows you to load your saved get sponsors email.

Minor Enhancements & Bug Fixes

Minor Enhancements	
Component	Description
Mobile Registration	<p>We have updated our buttons in mobile registration so it is more apparent which is selected:</p> 
Mobile Registration	<p>Changed the Join Existing Team search to a dropdown menu instead of tabbed buttons. More ideal for space conservation and general navigation ease.</p> 
Reports	We have extended the character limit for Address Line 1-4 in our reports to 200. This will resolve some issues we were having with errors on reports.
User Defined Fields	We eliminate the page refreshing when a user defined field (UDF) is selected that has a sub-UDF.
Tribute Template	We added the ability for an organization to show/hide the Massage to Charity field.
Tribute Template	Updated the PayPal option to a PayPal logo.
	
Fundraising Hub	We increased the size of the Address Book icon in the fundraising hub.
Admin Console	We added a “Select All” option to the location selection page on registration type.
Event/Campaign Template	If the registration dates have passed and the signup option is no longer on the new event home page, the other buttons (login, search, donate) are now centered.
Bug Fixes	
Component	Description
Registration	Resolved an issue where the Join Team button was appearing on a corporate team page when the registrations dates had passed.
Purchase Items Template	Resolved an issue where you could move passed the purchase items selection page with no purchase items selected.
Tribute Template	Removed the “General Donation” checkbox from the E-card settings as it had no purpose on the new tribute pages.
Mobile Fundraising Hub	Resolved an issue where “Get Sponsors” was appearing on the team page in error.
Mobile Registration	Resolved an issue where Waive Fee options were not appearing on mobile registration if it was the only registration type available.
Export / Registration API	Resolved an issue where a returning registrant done via the registration API that was initially registered via import was reporting to the export as Imported instead of Online.
Social Network Settings	Resolved an issue where a Twitter message edited on a mobile device was not including an event URL when posted to Twitter.
Fundraising Hub	Resolved an issue where the internal team message board was formatting text incorrectly.

External Scoreboards	Resolved an issue with external scoreboards not functioning properly with the new event home page enabled.
External Scoreboards	Resolved an issue where external scoreboards in an iframe were not opening in a new browser tab.
