

As part of our commitment to continuously update and enhance our Fundraising system, we recently made the following enhancements to the Artez Platform.

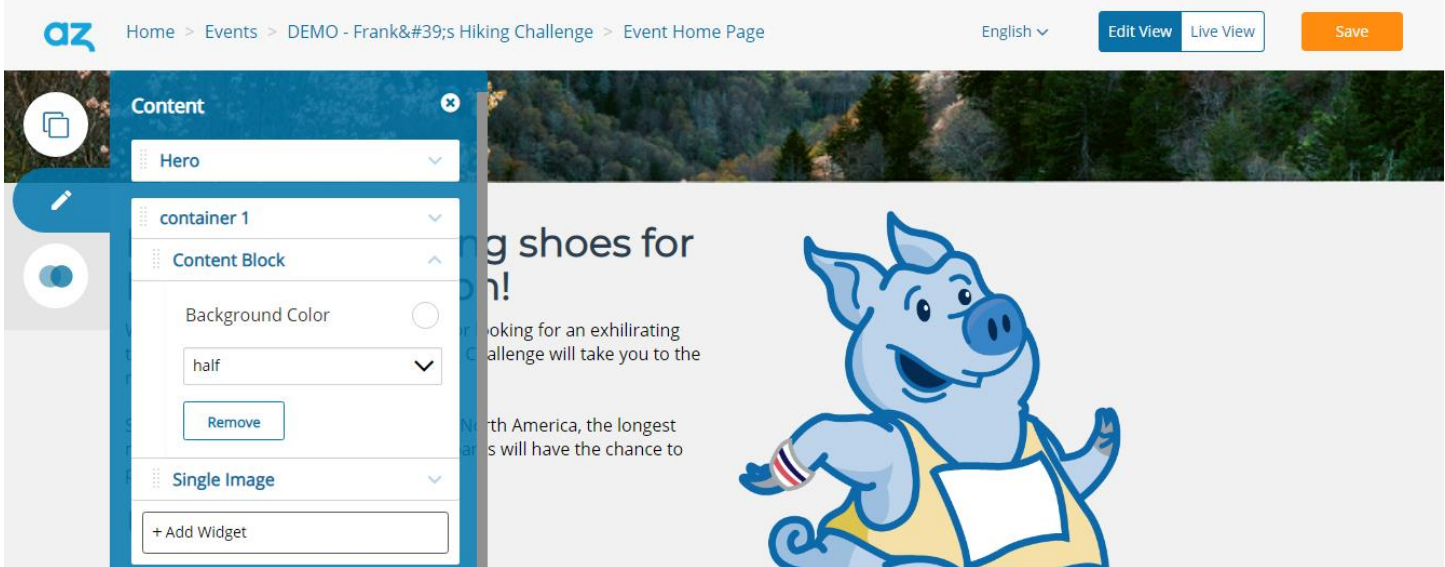

## Peer to Peer Template – Editor Enhancements

*This is a BETA release. Users may experience issues when using the editor or viewing the live pages. Additional functionality will be added in future sprints.*

A new *Edit View* and *Live View* feature has been added to the Event Editor. You can now edit and access a preview of the Event Live Page from within the Editor. A new language dropdown page option now allows you to easily switch between languages when editing content for bilingual events. In addition, users can set their event theme and styles from a single area within the Theme tab and design their pages with widgets which are being streamlined with a new look and feel. Stay tuned for further updates!

## Minor Enhancements & Bug Fixes

- Fixed an issue where the External Login Form was redirecting to the Old Event Home Page for events that had the New Event Home Page enabled
- Fixed an issue to allow 11 digit mobile number entries for New Zealand
- Fixed an issue where Returning Registrants were being directed to old Registration pages in error for events with multiple locations
- Fixed an issue where New Registrants were unable to join a team when Restrict Team Registration by Team Captain's Location was enabled
- Fixed an issue where participant pages linked to a cancelled registration with a language preference of French were accessible in error
