

As part of our commitment to continuously update and enhance our Fundraising system, we recently made the following enhancements to the Artez Platform.

### ❖ Profile Picture/Banner Image Upload Enhancements

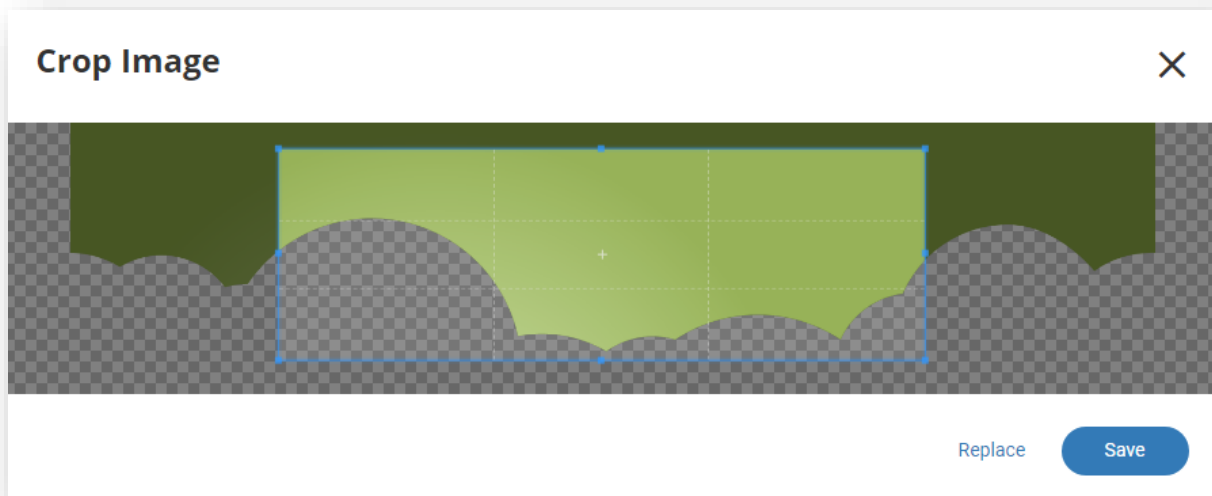

#### Banner/Profile Image Upload Enhancements

We have added the ability to crop and zoom the banner and profile pictures before uploading. This feature gives the user more flexibility when adding a picture so the page can be more easily customized. This is also available on mobile devices when uploading a participant or team profile picture in the Fundraising Hub.

**Profile Picture in the Fundraising Hub (Big Browser / Mobile)**

**Banner Image in the Panorama Event Builder**

**Bugs & Minor Enhancements:**

**Minor Enhancements:**

- Updated “Content Background Color” in the Artez 2.0 theme menu to change the backgrounds of multiple sections so that all text can be made visible
- Updated the Artez 2.0 Header Logo to redirect to the Event Home Page if clicked
  - The Logo in the Fundraising Hub does not redirect
- Updated the default page colors and fonts for newly created Artez 2.0 events
- Updated the Location Text in the Banner to display the “Banner Text” color in the Theme menu
- Updated image upload rules to allow any image size to be uploaded

**Bugs:**

- Artez 2.0 Issues Resolved
  - Issue where the Login button was taking users to the Old Fundraising Hub
  - Issue where users were seeing an error when attempting to edit Email Layouts
  - Issue where sharing to Facebook displayed the wrong event information in Facebook
  - Issue where registrants were being directed to the Returning Registrant page when Returning Registrations were disabled
  - Issue where events were directing completed mobile registrants to the old Fundraising Hub
  - Issue where Navigation Link Icons were not displaying on iPhones
  - Issue where Drop-Down survey questions were not functioning, and Sub Questions were appearing prematurely
  - Issue where aborted registration were able to access the Fundraising Hub
  - Issue where logo images were distorted due to aspect ration
  - Issue where returning registrants could access the old Fundraising Hub
  - Issue where iPhones input focus was not working
  - Issue where image upload was failing on Internet Explorer
  - Issue where the header logo was not appearing on live pages
  - Issue where the Event Details widget did not display the map of the location if setup correctly
  - Issue where “view page” directed the user to the live page in the same tab. It now opens a new tab for convenience
  - Issue where custom URLs did not allow Editor access
  - Issue where users could not access a team page if team donations were disabled
  - Issue where Google Analytics was not working
  - Issue where donations failed on Internet Explorer
  - Issue where Emails didn’t send from Internet Explorer
  - Issue where fundraising goals could not be set if goals were not enabled until after the registration took place
- Resolved an issue where Admin User passwords were still able to be set by admin user if Panorama SSO was enabled
